

Full-time Faculty and Staff Employee Discount

Boilermakers can take their next giant leap by enhancing their skills with a Purdue master's degree. Full-time Purdue West Lafayette employees admitted to a Daniels School of Business online specialty master's degree or select certificate programs will receive an automatic 10% discount. Plus, for select programs, the business school will match up to an additional 10% if the employee's department is providing funding. Employees admitted to the online MBA program or the Business Essentials graduate certificate program will receive a 5% discount without a match.

The discount applies to full-time faculty and staff at Purdue University's West Lafayette campus. You may want to discuss professional development funding within your department/unit, as well as the availability of MaPSAC professional development grants.

Embarking on the Online Business Analytics Graduate Certificate journey at the Daniels School of Business was truly transformative. The program's flexibility allowed me to learn essential skill sets and engage in master's level coursework without the added pressure of completing a full master's degree. After completing the program, I successfully secured a promotion within my organization and pivoted my career into marketing analysis. The program's adaptability and practical approach equipped me with the tools and confidence needed for success."
