For Purdue undergraduates interested in pursuing a career in accounting, the MSA Pathway Program offers an optimal route to completing the 150 hours of college credit work required to sit for the CPA exam. With conditional admission starting as early as sophomore year, eligible students can streamline their undergraduate experience and transition seamlessly into a ten-month Krannert master’s program.

**PROGRAM REQUIREMENTS**

- To be eligible to apply, students must be admitted into the Krannert School of Management, declare Accounting as their undergraduate major, and complete at least thirty (30) credit hours, either through coursework or Advanced Placement credits.

- To be eligible for admission, students must complete MGMT 20000 (Introductory Accounting), MGMT 20100 (Management Accounting I), and MGMT 35000 (Intermediate Accounting I) as part of their 30 credit hours.

- Successful applicants may be admitted starting with their sophomore year, and must maintain a 3.0 cumulative GPA to remain eligible.

**PROGRAM HIGHLIGHTS**

- Compared to those with only a bachelor’s degree, MSA graduates are poised to capitalize on accelerated promotion opportunities and an estimated $1.5 million increased lifetime earning potential, when combined with a CPA license.

- MSA graduates are well prepared to pass the CPA exam. Most graduates pass all four sections of the exam within a few months of graduation.

- At the Krannert School of Management, the tuition rate of the Master’s of Accounting program is comparable to the undergraduate rate, per credit hour, of attaining the 150 credit hours required to take the CPA exam — making the MSA a clear choice for return on investment.

- The GMAT exam is not required for students applying to the MSA Pathway Program.

- The MSA program offers flexible curriculum for careers in both public and corporate accounting.

*GMAT waivers are available to qualified applicants.

The opportunities I have had in the Master’s of Accounting program have further developed my career potential. I have had internship experiences that allowed me to experience both the public accounting and industry sectors of the accounting world at Ernst & Young, LLP and SC Johnson & Son, Inc. In both settings I was able to effectively apply the knowledge and skills I have gained in my classes at Krannert. I also have professor
