MASTER OF SCIENCE IN FINANCE

The 10-month residential MS Finance (MSF) program incorporates real-world applications and research to create analytical problem-solvers. The 36-credit hour program offers you a team-based environment with peers from around the world to gain a global business perspective. You will develop your abilities in critical thinking and analytical problem-solving. As a STEM-designated program, courses incorporate coding in Python, one of the fastest-growing programming languages in the financial industry — and a top specialized skill sought by fintech employers — and prepares you for the career path of your choice, whether in corporate finance, fintech, financial analytics, investment management, security analysis and brokerage, commercial and retail banking, or financial management of commercial and nonprofit organizations. You’ll be able to participate in the Student Managed Investment Fund (SMIF) or the Student Managed Venture Fund (SMVF), which provide real-world portfolio management and security analysis experience.

### TOP 20 MS FINANCE, NORTH AMERICA
- QS

- Opportunity to take part in experiential learning such as the CFA Research Challenge, finance consulting practicum, networking trips to Chicago and New York, and unique programs that provide real-world portfolio management and security analysis experiences such as the Student Managed Investment Fund and the Student Managed Venture Fund.

- Delve into fintech, including cryptocurrencies, their applications, tokens, smart contracts and automated market making to understand how these are transforming financial services and inclusivity worldwide.

- The MS Finance program is STEM-designated. Successful graduates of the program may be eligible for STEM OPT extension.

- No prerequisite finance coursework is required.

- Learning in a team-based environment, students work with peers from across the United States and around the world, including other professional master’s program students offering insights into broader business principles. Students gain a global business perspective in their classroom and group interactions.

- Graduates prepare for careers in corporate finance; investment management; security analysis and brokerage; commercial and retail banking; and financial management of commercial and nonprofit organizations.
The MSF curriculum prepares us for the fast-paced corporate culture that awaits us after graduation. Mergers and Acquisitions, Advanced Corporate Finance and Portfolio Management align well with my career aspirations.
