➢ You will notice the application consists of several sections on the left side of the screen. Please first read the instructions and click “Continue” at the bottom:

Instructions

Thank you for considering Purdue University Graduate School. This application may be submitted once you have answered all required questions. Required fields are marked with an asterisk (*).

You will have an opportunity to apply for up to three different campuses and/or graduate majors with a single application and fee payment. On the “Campus and Program” section of your application, you have the option to rank, in priority order, your first, second or third choice graduate campus and/or graduate major. Please do not repeat the same combination of campus, major, degree objective, and course delivery as your first and/or second choice program in the application.

Additional application sections (Test Scores, Diversity Essay, Resume, Recommendations, etc.) will appear once you have selected a degree objective on the “Program Details” tab of your application. You do not have to complete the online application in one sitting—you may access your application and change your answers as many times as you like with your username and password from any computer with Internet access. To navigate through the system, please use the navigational links located on the left of your screen.

Programs have different deadlines and some have specific requirements on completing the application. If applying to more than one campus and/or graduate major, each graduate program on your application may have different requirements. Before you begin working on your application, please review some important program specific information located on our Graduate Program Requirements Web pages.

Once you have completed the application to your satisfaction, you should submit your application by clicking the ‘Review’ button. Please note that you may submit your application only once and that once submitted, you will not be able to make changes to your application information using the online application system. The application should be submitted (and the application fee satisfied) by the appropriate deadline.
