MASTER OF SCIENCE IN ECONOMICS

The MS in Economics program offers career-compatible flexibility for busy professionals with a design for individuals who have an interest in learning the tools to analyze and interpret economic data, as well as the ability to apply those results to decision making in business and public policy environments. Students have the option to specialize in four unique areas that offer the opportunity to expand applied or theoretical understanding of economics. With access to extensive datasets, both public and proprietary, top faculty teach cutting-edge quantitative and empirical instructional methods.

PROGRAM HIGHLIGHTS

- Prestige: Consistently ranked as one of the top MS programs in the U.S.
- Flexibility: 100% online program that allows you to earn a degree without affecting your time with family or career responsibilities.
- ROI: Recognized among the most affordable MS programs, offering exceptional return on investment to graduates.
- Innovative curriculum: Teaching methods focus on subjects such as econometrics (big data, machine learning), statistical software applications (Stata, Matlab, EViews), modern computational and programming tools (Python), business forecasting, game theory, and experimental economics, among other areas.
- Combined Degree: Current Purdue STEM undergraduates can apply up to nine credit hours of coursework of both a BS and MS degree in Economics and then finish their MS program online.
