Purdue’s Online Master of Science in Global Supply Chain Management (MSGSCM) is a 30-credit hour program targeted towards working professionals seeking to advance their careers by developing supply chain management knowledge, skills and abilities. Designed by faculty from our top-ranked in-residence MSGSCM program, the flexible online modality offers a strong foundational and core set of courses in GSCM content in areas such as Operations Management, Project Management, Supply Chain Management, Supply Chain Analytics, Strategic Sourcing and Procurement, and Global Supply Chain Management. You will develop skills to work in cross-disciplinary teams and across functional boundaries. You will take an experiential learning course where you will complete a project for a partnering company and work on real-life organizational challenges in managing their supply chains. You may also take a complementary set of GSCM elective courses in areas such as Ethical & Sustainable Supply Chain, Python Programming, Advanced Manufacturing, and Change Management or Negotiation.
